

Accessories for Daily Injections

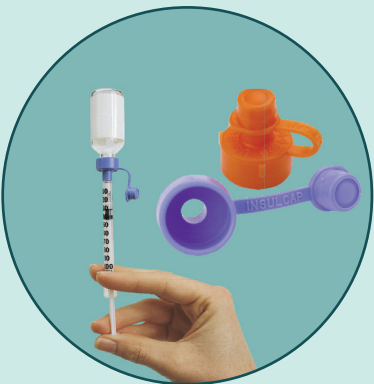

Insul-eze™

Syringe Magnifier

One-piece syringe magnifier that holds syringe and insulin bottles in place for those with visual or manual dexterity problems.

- Aids in syringe loading for visually impaired
- Magnifies all syringe calibrations two times for easy reading
- Holds syringe and bottle firmly while drawing dosage
- One piece unit accommodates most syringes and bottles
- Can be attached to refrigerator or wall with Velcro or magnet for easy viewing and loading
- Part #IZ6000

Insul-Cap™

Stores, Identifies Insulin Bottles, and Helps Load Syringes

Insulin bottle caps designed to aid in storing, identifying and making drawing insulin into a syringe easier.

- Allows one-handed syringe loading
- Fits most standard syringes and insulin bottles
- Easy to put on, store and remove
- Keeps bottle tops sanitary
- Safely holds insulin bottle while user holds syringe
- Part #IC200S

Insul-Tray™

Insulin Bottle Tray

Small and sturdy Insulin bottle holder that keeps bottles organized and standing upright.

- Fits most standard insulin bottles
- Easy to put on, store and remove
- Part #ITR500S
