

Inject-Ease® Injections Made Easy

Conquer the anxiety of injections with the **Inject-Ease®**, the device that makes injections easy. Simply place your loaded syringe in the **Inject-Ease**, place the tip against your skin, and press the button to automatically deliver the needle through the skin. You control the rate at which the medicine is injected. The special tip is designed to help reduce the pain of injection. Making injections easier helps reduce anxiety - an independent clinical study showed that 91.6% of participants reported less fear of injections with the **Inject-Ease**¹.

From the people at **AMBIMEDINC**, makers of world-class medical device products.

Key Features/Benefits

- Complete needle coverage - Reduces fear of injection by hiding the needle
- Special tip - Designed to help reduce pain through pressure anesthesia
- One-button ease of use - Provides independence to those with limited dexterity and coordination
- Designed for one-handed use - Allows access to harder to reach injection sites
- One-press needle insertion - Insert the needle through the skin automatically and easily
- Designed for BD* insulin syringes - works with 30, 50 or 100 unit syringes
- Comes with spacer rings for customization of injection depth
- Convenient for travel - maintains preloaded syringe integrity

Key Selling Points

- Industry-leading 2 year warranty
- Usable with subcutaneous self-injection treatments, including diabetes and other conditions²
- **AMBIMEDINC**-recognized quality
- Affordable
